

FROM THE EXECUTIVE DIRECTOR

Today's Weekly Update begins with some important information for families of children in public schools throughout Massachusetts. During last week's Parent Information Coffee and the Parents Association Meeting, parents raised many real questions regarding public school funding. It may be interesting for families to know that public school educators have been asking many of these same questions over the past six weeks.

We learned in April that next year's income projection was less than it has been in the past. Each year we determine our yearly budget based upon projections from per pupil tuition. As a regional charter school, we receive students from twenty-four sending districts. Each sending district has a different tuition number, but it is based upon the same formula. That formula is called the *Chapter 70 Formula* or the *School Funding Formula* and it is made up of a combination of local property taxes and state aid. The formula begins with a foundation budget determined by the state. This is based upon student enrollment, a wage adjustment factor, and inflation. This is then combined with a local contribution from a city or town consisting of property taxes, income, and any municipal revenue growth that may be factored into the equation. These two make up the per pupil tuition that follows the student into their district public school, vocational school, or charter school if they so choose. This is why so many public school districts are concerned about charter school growth.

On Wednesday morning, during our parent coffee, one parent asked about some of the negative messaging being sent from local school districts regarding charter school growth. What is heard much less frequently is how charter school enrollment truly affects the sending school system. The state reimburses each sending district one hundred percent of the per capita tuition for the first year a student from a local district attends a charter school. The state reimburses sending districts twenty-five percent of the per capita tuition for years two through six. Each sending district receives considerable income from the state for students not taught within that district. Sending districts receive no per capita tuition reimbursements should a child from the district choose to attend a regional public vocational school or a private school. Although charter schools may be a target for hostility, we are not the enemy. The real question lies in why all of public education is so seriously underfunded.

The intent of the Chapter 70 formula is to ensure that each district has the resources required to educate children across the Commonwealth of Massachusetts. However, due to some federal and local recalculations, many school districts and charter schools have found this year's calculations to be less than in years prior. This is definitely the case when we look at next year's projected tuition. Because of variables in the calculations, not all charter and district schools have felt a negative impact, but we have.

If next year's budget projections come to fruition, this means that we will experience a 1.97 percent decrease in per pupil spending. This amounts to two hundred and forty-four dollars less per student. Based on forecasts from the Department of Education, there are decreases in many of our top sending districts. It is important to remember that all public schools have the same funding formula; it is the variables that factor into the formula that are different. Therefore, the financial outcome is also different. Information on how each variable is factored into the formula is not available, as factors have been given different weight over the past two years.

There is some good news in all of this. Due to the hard work of the Finance Committee and our Director of Finance, Kristine Bingham, our budget has been balanced and was passed at last Thursday's Board of Trustees Meeting. Slides from that presentation have been posted on our website and I would encourage you to review this information. Balancing the budget was a major challenge, yet we remain committed to small class size, project-based learning, and providing our students with the strong educational programming that has become the hallmark of the South Shore Charter Public School.

Please do not hesitate to contact me with any questions you may have.

ATHLETICS UPDATE

High School Softball and Baseball Teams Win First Games

After a long season of learning and hard work, the SSCPS softball and baseball teams entered their second season of league play looking to become more competitive. Each team has improved dramatically from last year to this year and they continue to improve as the season progresses.

Through five games, the softball team has compiled two wins and three losses. They have been led by consistent pitching by sophomore Nicole Rousseau, solid fielding by the whole team, and great hitting by sophomores Madison Mirabile, who recorded the school's first ever home run, and Cassie Amicangelo.

Through five games, the boys have recorded one win and four losses, including two nail biters by one run. The team has been led by the strong pitching of senior Ed Crowley, and junior Desmond Sullivan, and the hitting of sophomore Matt Whitman, senior Paul Sullivan, and the strategic base running of senior Van Harting.

Additionally, both teams would like to thank Jason Trask, Level I parent, for his support of the baseball and softball teams by donating equipment and his time from the South Shore Baseball Club to enhance the SSCPS program.

COMMUNITY SERVICE OPPORTUNITIES

Once Upon a Time Storybook Book Drive

Do you have any gently used picture or early reader books that would be appropriate for read-aloud in grades K-4? A friend's Eagle Project from Boy Scout Troop 34 in Hanson is starting a program in Whitman and Hanson where high school students will read to elementary school students. This program mirrors what we have done at SSCPS for years. I know how great it can be so I am hoping to collect books in support of my Boy Scout Troop to help start this wonderful literacy program. A box will be available in the SSCPS front lobby for collection.

Tanner Demaggio

Spring Cleaning Time!!!

Shannon Daly in Rachel's room in Level IV is collecting slightly used or new books for children, ages 2 to 14, whose parents are students at the Adult Learning Center in Brockton. Each year, all the adult learners and their children are invited to come and choose books that they can take home to create an at home library. The Learning

Center relies on donations from community members to make this give-away possible, a lot of the time this is the only way they receive books. The collection box is located outside in the front lobby at the front desk, and any donations would be greatly appreciated. For larger donations please contact Barbara at barbara6910@msn.com

Level II Student Collecting Donations for Local Animal Shelter

Fisher Roman loves cats. LOVES them. He recently adopted a homeless cat from the local animal shelter. While he was at the shelter, he noticed all the cats that don't have homes. There were LOTS. So, to help the homeless cats in his town of Hull, Fisher is collecting cat food & cat litter and donating it to the shelter (called the Hull Seaside Animal Rescue). If you would like to help the cats and kittens who don't have homes, you can bring in a can or bag of cat food or cat litter and drop it off in Fisher's Cat Box in Nicole's Pod on Level 2. You can drop off your donations from now until the last day of school. Meow! (That's "Thank You!" in Cat Language)

 - Only one cut per cutter—someone who is cutting can cut only **one person's hair**
 - That person needs no skill, just BRING a pair of scissors that they will use to cut through a braid of hair
- THIS YEAR! **We need hairdressers** to volunteer to clean up the heads a bit after they are cut!! Please contact Angeline at acowgill@sscps.org if you're willing to help.
- Students in grades K-8 need a permission slip
- EVERYONE SHOULD MAKE SURE THERE IS SOMEONE THERE TO CHEER THEM ON- THEIR CLASS OR A FEW MEMBERS OF THE CLASS, A MOM OR DAD.

"If you are looking for a reliable and trustworthy person to drive your child to school, FCC transportation is the right company. I have been with FCC Transportation when my child started in 4th grade at SSCPS. She treats the parents and their kids with respect. If any problem occurs, she will contact you immediately or in advance so you have the time to plan accordingly." Parent of a twelfth grader

My name is Susan Klineh. I started my own bus company as an SSCPS parent because we had so many issues with the company we were using. As a parent of four graduates, I am very familiar with the school. I understand your concerns and what you are looking for in your kid's bus transportation. Some of my families have been with me over 8 years. References are available upon request.

"I've had total peace of mind with FCC for the last ten years driving my kids. She has total control of the bus. At an anti-bullying workshop a few years ago the speaker, who had done a student survey, said it was the first time ever she had not had a single mention of the school bus as a place of bullying in her survey, and I knew exactly why."
