

Each year, the SSCPS P.E. department is proud to partner with the American Heart Association to help kids with special hearts! SSCPS participates in the Kids Heart Challenge because it is a great opportunity to help children born with sick hearts, while teaching students healthy heart habits.

The event also allows the P.E. department to earn certificates towards new equipment and supplies! Fundraising is completely optional and all students will be participating in their event week by joining in heart health discussions and engaging in fun games and activities in their P.E. class!

Mark your calendars now for our upcoming Kids Heart Challenge event week

APRIL 1-5

All fundraising forms will be due by Monday April 8th

(Students can pass forms into their P.E. teachers or to the front desk)
